## Summary.

With a Ph.D. in Sustainable Energy and extensive experience in energy consulting, ESG strategy development, and sustainability analysis, I bring strong technical expertise to market analysis roles. My background spans both academic and commercial settings, where I have contributed to innovative projects such as the FRONTSH1P Horizon project and optimized ESG strategies by evaluating impacts, risks, and opportunities. I have developed a deep understanding of green fuels through my research in the Bioenergy and Biofuels lab. Additionally, as a sustainability consultant, I gained knowledge of European energy regulations, sustainability trends, and the drivers of renewable energy markets. This is complemented by robust data analysis skills and expertise in stakeholder engagement, particularly through the application of double materiality principles. Furthermore, my experience in information security management has broadened my perspective, enabling me to recognize the interconnectedness of various knowledge fields. I am seeking a role that leverages my diverse skill set and innovative thinking to accelerate the energy transition while ensuring cybersecurity and data privacy are maintained.

POSTDOCTORAL RESEARCH AND TEACHING ASSISTANT

Nov 2022 - Present

- FRONTSH1P project A FRONTrunner approach for the transition to a circular and resilient future: deployment of systemic solutions with the support of local clusters and the development of regional community-based innovation schemes.
- Performed techno-economic analysis to optimize process conditions and reduce costs.
- Developed simulations and models to foster the understanding of thermochemical processes.
- · Applied data analysis techniques to experimental datasets, such as peak de-convolution and curve fittings.
- Developed a machine learning model to predict the biocrude oil yield.
- · Teaching assistant for the course Energetics of the B.Sc. in Industrial and Mechanical Engineering, and M.Sc. in Energy Engineering.
- Support in the supervision of PhD and Master students.

SGS Italy

• ISO/IEC 27001:2013 - Information Security Management lead auditor training.

• ISO/IEC 27001:2022 - Information security, cybersecurity and privacy protection.

SGS Italy

CONSULTANT Oct. 2018 - Oct. 2019

- · Dealer training for stock audit on assignment from a certifying organization for a leading heavy machinery manufacturer.
- · Audits held in Italy.
